Re: Airporter Schedule/Bid Changes

You will notice on the next Bid that shifts 200, 400, 600 and 800 are not posted. Currently, the Airporter Schedule is being reviewed to help us find ways to reduce the cost of operation during this slow and unprofitable time. Some of the options would take us to a 45 min or 1 hr schedule. For this reason we are not posting shifts 200, 400, 600 and 800 because they are likely to end in the beginning part of the 2 month bid. Until that point they will be dispatched open board. Please note that the times for shifts 100, 300, 500 and 700 are subject to change. This is the best information we have as of this point.

As always we are open to your suggestion on how to make this service more successful.
